EMS TRANSMISSION

Instruction Memorandum No. BC-2003-030

Expires: 9/30/2004

To: All State Directors, Field Office Managers

Attn: State and Field Office Property Managers

From: Director, National Business Center

Subject: FY 2003 Real Property Inventory and Certification

Due Date: 06-01-03

Program Area: Real Property Management

Purpose: This Instruction Memorandum (IM) sets forth procedures and requirements for conducting the FY 2003 Real Property inventory and certification process.

Policy/Action: All Bureau of Land Management (BLM) offices that have accountability for real property assets must conduct the FY 2003 Real Property inventory. This inventory should be accomplished utilizing information found in the FA300, Real Property Management Inventory report. Specific responsibilities are outlined in Attachment 1, while Attachment 2 lists procedures and steps for conducting real property inventories. Real Property inventories must also be certified (see attachment 3, Real Property Inventory certification).

Timeframe: This IM is effective upon receipt. The submission of all supporting documents for data corrections, additions, disposals, and the inventory certification is due to BC-653, Property Operations Branch, by June 1, 2003.

Budget Impact: The effect on the budget is minimal.

Background: During the FY 2002 audit, the BLM received a Notice of Finding and Recommendation (NFR) focusing on untimely additions and deletions in Real and Personal Property. This is a repeat finding from the FY 2001 financial audit. Continued emphasis and attention is needed in both the timely accounting for all new property assets and ensuring the efficient disposal of obsolete assets.

Close coordination among Property Managers/Technicians, Engineers, and Bureau Accountable Officers is required to ensure the effectiveness of the annual inventory.

Your diligent attention is needed to help ensure that our assets are properly accounted for and that adjustments to Bureau records are made efficiently. A thorough and complete inventory will help the Bureau maintain its unqualified or "clean" audit opinion for the FY 2003 financial statements audit.

Manual/Handbook Sections Affected: BLM Guidebook, G-1520-1, Real Property Management.

Coordination: This document was coordinated with the National Business Center's (NBC's) Program Management Branch (BC-612) and Property Operations Branch (BC-653).

Contact: If there are any questions regarding the inventory or certification process, please contact Andra Gerstenkorn at 303-236-9403 or Robert Palmer at 303-236-9426.

Signed by: Thomas F. Boyd Director, National Business Center Authenticated by: Lynne J. Lotvedt Staff Assistant

#### 4 Attachments:

- 1 **B** Real Property Inventory Responsibilities (2pp)
- 2 **B** Procedures and Steps for Conducting Real Property Inventories (2pp)
- 3 Real Property Inventory Certification (1p)
- 4 Real Property Inventory Facility Outline (4pp)

### **Real Property Inventory Responsibilities**

#### General Responsibilities:

Inventory responsibilities must be shared between field office property management, fire/recreation community personnel as applicable, and engineering personnel.

#### State Office Property Managers will:

- Upon receipt of the IM, inform Field Office Managers of timelines for completion to meet the June 1, 2003 deadline.
- Collect the inventory and updates from the Field Office(s); review, certify, and forward the completed inventory to NBC for input into the Fixed Asset (FA) Personal/Real Property Management system.

#### Field Office Managers will:

- Establish an "Inventory Team" consisting of the Field Office Property Manager, Field Office Engineer, Fire Resource Manager as appropriate, recreation personnel as appropriate, and other personnel as needed to complete the inventory.
- Ensure coordination between engineering, fire resources and recreation personnel where applicable, and property management personnel.
- Review final supporting documentation for completeness and ensure that the inventory is conducted in a timely manner to meet deadlines set forth by the State Office Property Manager.
- Sign the certification and submit it to the State Office Property Manager by the due date.

#### Field Office Property Manager will:

- Coordinate and conduct the Real Property inventory. Work with Engineers and Fire Resource Managers as needed to obtain an accurate inventory and certification.
- Certify that the inventory has been completed.
- Provide a copy of FA300, certification cover sheet with proper signatures, and any addition or deletion supporting documents to the State Property Manager.

#### Field Office Engineer/Fire Resource Manager & Recreation Personnel (as appropriate) will:

- Cooperate with State and Field Office Property Managers to ensure completion of the inventory and necessary paperwork for additions/deletions.
- Certify that the inventory has been completed.

## BC-653 Real Property Staff will:

- Review the submissions from each State Office and determine what assets need corrective action in the system.
  - Monitor the status of all field office property management inventories for the WO and ensure that property management inventories are submitted by field offices
  - Reconcile real property assets with the Bureau General Ledger (GL) control accounts.

#### **Procedures and Steps for Conducting Real Property Inventories**

- 1. Print Real Property inventory records (FA300 Report)
  - Go to http://mis.blm.gov/index.html
  - Choose Property, Space, & Vehicle
  - Click on your State
  - Scroll down to the FA Real Property Reports
  - Choose the FA300 Brio report
  - Highlight the location code appropriate for your inventory
  - Choose "Click to Select the FA300 Report"
  - Print these records for inventory validation

To locate the appropriate locations on the FA300 that your team needs to inventory, please refer to Attachment 4.

- 2. The inventory team must visit all sites to validate the completeness and accuracy of the Real Property Inventory. The physical site makeup must be compared to FA300 inventory information.
- 3. Look for discrepancies between the FA300 and your own records regarding acquisition costs or descriptions. Suggested changes should be annotated directly on the FA300 report that will be turned into BC-653. While the focus is on current capitalized sites, please consider sites that are not currently in the Real Property Inventory; these sites may also contain new buildings, structures, or improvements that need to be added to the Real Property records based on the \$250,000 per site capitalization threshold. Special attention should also be paid to items that need to be removed from the FA records.
- 4. Review Additions to Real Property Records Additions, based on the current \$250,000 per site threshold, will require the following supporting documentation:
  - Acquisition documents
  - o Copies of Receiving Reports (with acquisition date information)
  - o 1310-11 Completion Form
  - o 1530 Property Forms
  - Financial Payment Documents
- 5. Review Deletions from Real Property Records Items listed on the FA300 that no longer exist must be properly disposed of. Appropriate disposal documents must be forwarded with the inventory and certification.
- 6. When the physical inventory is complete, the Field Office Property Manager, the Field Office Engineer, the Fire Resource Manager when appropriate, and the Field Office Manager must sign off on the inventory certification cover sheet. This certified inventory (annotated FA 300 report) with all supporting documents related to corrections, additions or deletions, should then be forwarded to the State Office Property Manager

7. The State Office Property Manager should review the inventory for completeness, certify the inventory, and forward the completed package to BC-653. All corrections, additions/deletions, and supporting documents must be forwarded with the inventory and certification.

Note: IM 2002-171, Policy for Establishing, Monitoring, Closing, and Maintaining Site Information for Capitalized Real Property Construction Projects, is a good source of information/guidance that can be referenced on the property web site main page, <a href="http://ncweb.sc.blm.gov/property/">http://ncweb.sc.blm.gov/property/</a>.
